DETAILED ACTION

Election/Restrictions

1. Claims 8-11 are still withdrawn because they are not supported by Figure 30, which is the species chosen. Upon allowance of a generic or linking claim, the withdrawn claims will be rejoined.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-3, are rejected under 35 U.S.C. 102(b) as being anticipated by Reilly et al. (USPN 5,383,858).

Reilly et al. discloses a syringe barrel for an injection device, the syringe barrel being adapted to be mounted on a cylinder holder that comprises a flange insertion groove, the syringe barrel comprising, a flange adapted to be held by said flange insertion groove so as to fix the syringe barrel, and a reinforcing rib on a rear surface of the flange, and wherein the reinforcing rib has a radial reinforcing part and a concentric reinforcing part (see Figure 4).

Allowable Subject Matter

4. Claim 12 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

5. Applicant's arguments, filed 11/23/05, with respect to Dragan have been fully considered and are persuasive.

6. Applicant's arguments filed 11/23/05 have been fully considered but they are not persuasive, with regards to Reilly et al. The examiner draws the attention of the applicant to figure 4, which shows ribs as well as a concentric portion. Therefore, Reilly et al. meet the limitations of the claims.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of
